PROFESSIONAL SUMMARY

Second year Computer Science undergraduate building production Software and AI systems. Having experience across software development, startup engineering, and independent product building. Built India's first native sunrise forecast and a recruiter decision intelligence SaaS. Seeking software engineering, full stack, or applied AI opportunities.

EXPERIENCE

Software Development Intern | **INDIUM SOFTWARE** | Chennai, India

May 2026 - Present

- Developing a full stack AI assisted Engineering Knowledge Search Platform involving RAG, backend API development, semantic search workflows, application design, and technical documentation.

Founder's Office Intern - Technical Product & Engineering | **MOVZZY** | Chennai, India

February 2026 - April 2026 | 3 Months

- Built a six screen mobile prototype (1,600+ lines React) with Chennai map integration and live provider data used in investor and stakeholder demonstrations.
- Refactored the fare estimation engine (surge pricing, airport premiums, road-distance correction) and resolved critical TypeScript regressions across import chains and API mismatches restoring full compilation and 52/52 unit tests passing.

EDUCATION

Vellore Institute of Technology (VIT), Chennai

Bachelor of Science in Computer Science with Data Science | CGPA: 8.98/10 (3.59/4.0)

Sri Ramana Vidyalaya MMHSS, Rajapalayam | HSC: 81% | SSLC: 92.4%

PROJECTS

Seaside Beacon v2 | **India's First Native Sunrise Forecasting Platform** | **Native iOS Companion App Under Development**

January 2026 - Present | Independent Project | www.seasidebeacon.com | github.com/kevint1814/seaside-beacon-public

- Built a full stack sunrise forecasting platform evaluating 11 atmospheric parameters across 5 beaches with 6 verdict tiers and beach specific recommendations.
- Architected a Node.js/Express backend, 3 tier AI cascade, caching, Google OAuth, Razorpay billing, and Telegram assistant, serving 100+ daily API calls at sub-500ms p95 with 99.9% uptime.

VetLayer | **Human in The Loop Recruiter Decision Intelligence Platform**

March 2026 - Present | Independent Project | React, FastAPI, PostgreSQL, LLMs | github.com/kevint1814/VetLayer

- Built a recruiter decision intelligence SaaS using React, FastAPI, PostgreSQL, and LLM pipelines, implementing 3-tier RBAC, 30+ REST endpoints, concurrent batch CV evaluation, deterministic skill-depth scoring, risk detection, interview questions generation, and PDF intelligence brief export.

Network Outage Analysis & Automation Tool | **Nokia and Prodapt** | **National Hackathon**

December 2024 | 12th of 100+ teams | github.com/kevint1814/Mystique-Log-Dashboard

- LLM powered telecom log analysis tool identifying outage root causes and accelerating fault diagnosis; reduced manual diagnostics time by 40%.

TECHNICAL SKILLS

- Languages: Python, JavaScript, TypeScript, Swift, Java, C, C++
- Frameworks & Web: React, Node.js, Express.js, FastAPI, REST APIs | Databases: PostgreSQL, MongoDB Atlas, MySQL
- AI & Data: LLM APIs (Gemini, Groq, GPT, Claude), Prompt Engineering, Batch Pipelines, Data Analysis | Cloud: Vercel, Render, GitHub Actions, CI/CD

LEADERSHIP & CAMPUS INVOLVEMENT

General Secretary | **Artificial Intelligence Club, VIT Chennai** | Best Technical Club 2025 | Sep 2025 - Present

Member, Internal Quality Assurance Cell | **VIT Chennai** | Selected by department head | Jan 2026 - Present

CERTIFICATIONS

- Machine Learning | University of London
- Google AI Essentials | Coursera
